

All Weather Insulated Panels

Environmentally Friendly Wineries Lead the Way in Construction using All Weather Insulated Panels

We are experiencing a revolution in the design and construction of new buildings for Wineries in California.

Along with a commitment to renewable energy and organic farming, there is a commitment to building environmentally friendly wine storage facilities. These buildings offer new levels of protection and insulation. The wines can now be stored at a constant temperature with greatly reduced energy consumption, allowing the wines to develop in the best possible environment.

The commitment to reduce our carbon footprint and use materials that are 100% recyclable combined with the ability to create insulated buildings with an “R” value in excess of 50 has led wineries to partner with “All Weather Insulated Panels”. All Weather Panels have zero ozone depleting potential (ODP), do not produce measurable volatile organic compounds (VOC) and meet current EPA blowing agent requirements for the reduction of global warming potential (GWP)

The following California Wineries and construction partners have built state of the art Environmentally friendly Wineries with “All Weather Insulated Panels”

WINERY	LOCATION	BUILDING PARTNER
Alpha Omega Winery	Napa Valley	B.D. Compton Construction
Beaulieu Vineyards	Rutherford	Soule Building Systems
Dancing Hares	Saint Helena	Harold Metal Construction
Cuvaison Winery	Napa	Soule Building Systems
Frank Family Winery	Calistoga	Soule Building Systems
Golden Eye Winery	Philo	Soule Building Systems
Grey Wolf Winery	Paso Robles	CBC Steel Construction
Harney Lane Winery	Lodi	Roland Construction
Hart Vineyard	Templeton	CBC Steel Construction
Kapscandy Winery	Yountville	Soule Building Systems
Inman Family Winery	Santa Rosa	Frontier Contracting
Kelseyville Winery	Kelseyville	CBC Steel Construction
Kenzo Winery	Napa	Soule Building Systems
Lange Twin Winery	Acampo	Roland Construction
Merriam	Windsor	Soule Building Systems
Missouri Flats Wine Storage	Placerville	D.G. Grande
Monterey Wine	Hollister	Prayer & Hanson
Nelson Vineyards	Santa Rosa	Harold Metal Construction
Nadeau Family Vineyards	Paso Robles	CBC
Niner Winery	Paso Robles	Specialty Construction
Outpost Winery	Angwin	CBC Steel Construction

WINERY	LOCATION	BUILDING PARTNER
RB Wine	Hopland	Soule Building Systems
Rombauer	Napa	Solano Construction
Rutherford Winery	Saint Helena	B.D. Compton
Saracina Winery	Hopland	Weston Building
Seghesio	Healdsburg	Soule Building Systems
Silver Oak Winery	Oakville	Soule Building Systems
Solari Winery	Cotati	Soule Building Systems
Southern Wines	Phoenix	SubZero Constructors
Stonestreet Winery	Healdsburg	Soule Building Systems
Trione	Geyserville	Soule Building Systems
Venge Winery	Calistoga	FDC
Widerotter Vineyard	Plymouth	Roland Construction
