# Colors

All Weather Insulated Panels (AWIP) offers factory coating solutions for a multitude of building designs and performance requirements. Equipped with the latest cool color pigment technologies and a variety of specific formulations to protect your building envelope from the outside or the inside, AWIP has the paint system to match your task.

- Embossed metal surfaces are offered as a standard on wall panels and non-embossed (smooth) for roof panels. Non-embossed finishes may be available on wall panels upon request depending on color, gauge and end use.
- Premium colors, paint systems and special orders are subject to higher pricing and extended lead times.
- Complete paint system specifications and standard finish warranties are available upon request.

# Finishes

In addition to our standard paint systems, AWIP can provide high build coil coat systems formulated to withstand a variety of aggressive environments. Specifically, these expertly formulated paint finishes act not only as an excellent barrier against corrosive or extreme weather conditions but will enhance resistance to surface chalk and fade.

Non-embossed finishes may be available upon request depending on color, gauge and end use. The standard interior paint finish for all panels is Imperial White AW100 Polyester.
